

AffloVest Mobile Airway Clearance Therapy

Patient-preferred therapy, now enhanced.

AffloVest® is a wearable high frequency chest wall oscillation (HFCWO) therapy designed to support effective airway clearance while fitting more naturally into your patients' daily lives. By combining targeted therapy with comfort, mobility, and ease of use, AffloVest helps mobilize lung secretions and promote adherence for patients with bronchiectasis, cystic fibrosis, and neuromuscular disorders.

Targeted airway clearance that fits into daily life.

AffloVest uses eight anatomically positioned oscillating motors to deliver therapy to all lobes of the lungs—front and back. Its patented Direct Dynamic Oscillation™ technology is designed to mimic the benefits of traditional chest physical therapy—helping loosen, thin, and mobilize lung secretions.

Comfortable fit for all sizes.

AffloVest features a lighter, more streamlined design available in five sizes (XS–XL). Adjustable shoulder and chest straps help ensure a secure, comfortable fit across a wide range of body types.

Fits patients' lifestyles.

As a fully mobile therapy, AffloVest can be used at home and on the go, now with improved comfort, ease of use, and app connectivity to help your patients stay on track.

The AffloVest has given me a new sense of freedom. I immediately noticed a difference in how I felt and am now productive while wearing my vest.

— SARAH H., AFFLOVEST PATIENT

Unique features include:

- No tubes or hoses
- Three modes of oscillation treatment
- Three adjustable intensity levels
- New connected controller with intuitive controls
- Wi-Fi and Bluetooth® enabled for seamless connectivity

Specifications:

Mode of Operation	Eight oscillation motors anatomically positioned that create eight individual pressure waveforms
Power Supply	Battery-operated, rechargeable with five-year warranty, AC/DC power
Weight	4.3–7.8 lbs.
Sizes	Available in five sizes for a custom fit (XS–XL, 16"–75" chest circumference)

Size exchange program:

As children or adults grow, their AffloVest can too. Adjustments are made easy by our AffloVest Size Exchange Program*, which allows patients to go up or down in AffloVest size as needed, and be refit into one that provides the best fit for targeted airway clearance therapy.

Visit afflovest.com to learn more about our patient-preferred therapy.

AFFLOVEST®

AffloVest requires a doctor's prescription for treatment by high frequency chest wall oscillation (HFCWO). The AffloVest has received the FDA's 510k clearance for U.S. market availability, and is approved for Medicare, Medicaid, and private health insurance reimbursement under the Healthcare Common Procedure Coding System (HCPCS) code E0483 – High Frequency Chest Wall Oscillation. Patients must meet insurance eligibility requirements.

*Certain restrictions apply.
