

Therapy that fits.

With five sizes to choose from, AffloVest is the most inclusive vest available for the cystic fibrosis community. It delivers targeted therapy that fits the unique needs of every individual and lifestyle—regardless of size, shape, or body type.

And, as an AffloVest user, you'll be eligible for our Size Exchange Program, which makes it easy for children and adults to go up and down in size as needed.

5 Sizes

XS	16"–23" (41–49 cm)	L	46"–60" (117–152 cm)
S	23"–35" (49–89 cm)	XL	60"–75" (152–191 cm)
M	35"–46" (89–117 cm)		

*All exchange requests must be within reasonable limits and are subject to final approval by our patient support team. See Terms and Conditions on afflovest.com.

Tactile Medical is a leader in developing at-home therapies for people suffering from underserved, chronic conditions including bronchiectasis, neuromuscular disorders, and cystic fibrosis by helping them live better and care for themselves at home.

AffloVest requires a doctor's prescription for treatment by high frequency chest wall oscillation (HFCWO). AffloVest has received the FDA's 510k clearance for U.S. market availability, and is approved for Medicare, Medicaid, and private health insurance reimbursement under the Healthcare Common Procedure Coding System (HCPCS) code E0483 – High Frequency Chest Wall Oscillation. AffloVest is also available through the U.S. Department of Veterans Affairs/Tricare. Patients must qualify to meet insurance eligibility requirements.

Individual results may vary.

Indications/contraindications: Indications, contraindications, warnings, and instructions for use can be found in the product labeling supplied with each device.

Caution: Federal (U.S.) law restricts this device to sale by or on the order of a licensed healthcare practitioner.

Breathe easier with therapy that's comfortable, effective, and connected.

Discover how AffloVest can help you manage your cystic fibrosis.

AFFLOVEST®
MOBILE AIRWAY CLEARANCE THERAPY

Tactile
MEDICAL®

Do you want airway clearance therapy that fits your lifestyle?

If you're living with cystic fibrosis, you probably know about airway clearance therapy for mobilizing secretions. But you might not know that all airway clearance therapies are not the same. AffloVest is for you if:

- You're tired of being confined to one location while using airway clearance therapy
- You'd like easy-to-visualize, personalized treatment data to track your therapy
- You're interested in using the vest that's preferred by 93% of survey participants over bladder-style vests¹

TACTILE MEDICAL

What clinicians and AffloVest families are saying about AffloVest:

“

My patient recently received her AffloVest. She LOVES it! She says it makes her feel less like her vest therapy is a chore now. Her mom is so happy to see her happy!

AMY S.

RESPIRATORY THERAPIST

“

Our quality of life has definitely improved. Having an AffloVest has allowed them to have so much more freedom. We can jump in the car and be gone all day. They can wear it while they eat, travel, and never have to pause for a treatment. They can do their treatment while living their daily life.

RYAN D.

LIVING WITH CYSTIC FIBROSIS

“

It's so easy for me to strap it on and go cook dinner or get ready with my morning coffee. So it's not cutting into my day. It doesn't feel like a burden. I'm able to just add it in to my already active lifestyle.

EMILY L.

LIVING WITH CYSTIC FIBROSIS

Ask your provider if AffloVest is right for you.

Already have an older vest? You may still qualify for insurance coverage.

Experience the AffloVest difference.

AffloVest can help you manage your respiratory condition in a way that helps you breathe easier while supporting your lifestyle. Patient-preferred AffloVest features:¹

- Complete mobility to take your therapy at home or on the go
- Effective vibration and percussion action instead of squeezing and shaking
- Wi-Fi and Bluetooth® linked mobile app helps you track your therapy, visualize your progress, and feel more confident discussing your therapy with your care team

Lighter weight with better adjustability

Clinically shown to improve lung function^{2,3,4}

New connected controller
