

# Support your patients' next steps with AffloVest.<sup>®</sup>

Medical equipment used in the hospital may not be optimal for the home. Just like ventilation and oxygen therapies, airway clearance has evolved to encourage daily use at home.

## AffloVest helps your patients feel confident and supported at home.

- Helps reduce hospitalizations, emergency visits, and antibiotic use – so patients can focus on living well<sup>1</sup>
- Designed to fit seamlessly into daily routines, activities, and travel
- Non-pharmacological, without side effects
- The therapy patients are most likely to use and adhere to, supporting better outcomes<sup>2</sup>
- Easy-to-use controller and connectivity make tracking therapy progress simple

## Airway clearance therapy that fits patients' lives.

AffloVest delivers effective high-frequency chest wall oscillation (HFCWO) to loosen mucus, while the comfortable, mobile design fits right into daily life. In a recent study, patients overwhelmingly preferred AffloVest over bladder-style vests, making it the therapy they're most likely to adhere to.<sup>2</sup>
