

Airway clearance therapy that's effective, comfortable, and easier than ever to use.

AffloVest is an at-home HFCWO therapy designed to help loosen and clear excess mucus — allowing your patients to breathe easier and maintain their respiratory health. Available to patients since 2013, AffloVest provides freedom from air hoses and compressor units, unlike traditional airway clearance therapies. Patients can use it comfortably at home, work, or on the go, providing the best fit for their lifestyle.

How it works

An effective airway clearance method that mimics hand physical therapy.

AffloVest utilizes eight anatomically positioned oscillating motors to target all lobes of the lungs, both front and back. This patented Direct Dynamic Oscillation™ technology is designed to mimic the gold standard chest physical therapy (CPT). The oscillating motors deliver percussive force that creates eight individual pressure waves, helping to effectively loosen, thin, and mobilize secretions.

AffloVest has three levels of intensity to accommodate each patient's individualized needs and three unique modes designed to mimic hand CPT:

PERCUSSION	VIBRATION	DRAINAGE
<ul style="list-style-type: none"> All motors operate in a pulsed fashion Uses a regular rhythm 	<ul style="list-style-type: none"> All motors are continuously on Provides deep oscillation of the thoracic cavity 	<ul style="list-style-type: none"> Individual zones activated in succession Progresses up and down to mobilize secretions upward

AFFLOVEST

SPECIFICATIONS

Sizes	Available in five sizes for a custom fit, XS-XL (16"-75" circumference chest)
Weight	Lightweight, 4.3 - 7.8 lbs.
Power Supply	Battery operated, rechargeable AC/DC power
Warranty	Battery, power supply, and controller have five (5) year limited warranty; Go Anywhere travel case has a one (1) year warranty

Visit afflovest.com to prescribe our patient-preferred therapy.

Individual results may vary.

Indications/contraindications: Indications, contraindications, warnings, and instructions for use can be found in the product labeling supplied with each device.

Caution: Federal (U.S.) law restricts this device to sale by or on the order of a licensed healthcare practitioner.

Comfortable. Effective. Connected.

The patient-preferred airway clearance therapy, now enhanced!

AFFLOVEST®
 MOBILE AIRWAY CLEARANCE THERAPY

Tactile
 MEDICAL®

Innovation that fits patients' lives.

6th Generation AffloVest: The same technology, now enhanced.

BETTER ADJUSTABILITY

New shoulder and side straps with large buckles provide a wider range of adjustability and ease of use.

NEW CONNECTED CONTROLLER

Features a large screen, intuitive controls, and is Wi-Fi and Bluetooth® enabled for seamless connectivity.

LIGHT WEIGHT

A shorter vest profile and more compact battery makes this the lightest and most streamlined AffloVest to date.

Now connected for tracking therapy progress and adherence.

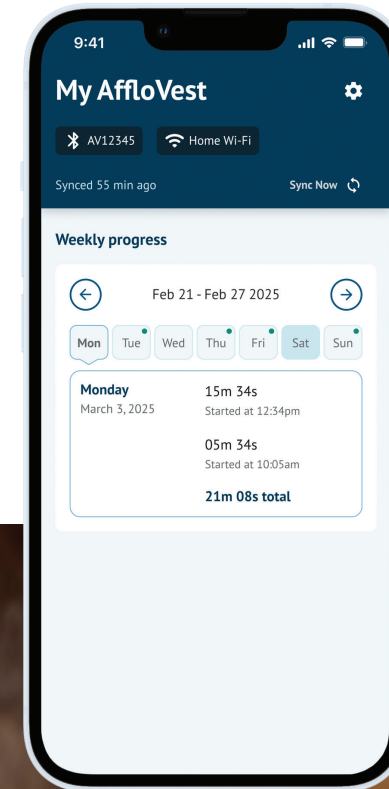

AffloVest offers a free, easy-to-use app that helps your patients stay on track with their therapy and get back to doing the activities they enjoy.

The AffloVest app is designed to help patients stay consistent with their airway clearance therapy, reducing the risk of respiratory complications. Key features of the app include:

- Streamlines tracking of AffloVest sessions through seamless Wi-Fi and Bluetooth® data syncing
- Delivers clear insights into daily treatment duration and progress
- Enhances care conversations with easily accessible treatment history

Proven results, patient preferred.¹

AffloVest is effective.²

In a pre vs post study, COPD and bronchiectasis patients using the AffloVest HFCWO therapy showed reduced hospitalizations for respiratory causes and better overall health.

↓ 87%
Reduction in antibiotic usage

↓ 82%
Reduction in emergency visits

↓ 96%
Reduction in hospitalizations

AffloVest is preferred.¹

In a recent study, participants overwhelmingly preferred AffloVest to bladder-style vests. Comfort and fit with the patients' lifestyles play important roles in adherence.
